Professional Summary

Computer Engineer with hands-on experience in full-stack development and system architecture, working across frontend technologies and enterprise platforms. Proven ability to design and deliver technical solutions in large-scale, Agile environments, with a strong foundation in JavaScript, HTML, Apex, and SOQL.

Experience

Deloitte

Delivery Analyst

07/2025 | Zaragoza

- Analyst at a large-scale Energy client engagement within Deloitte, working in structured Agile teams.
- Designs and develops system architectures for new business implementations, working with Apex, SOQL, JavaScript, and HTML.
- Manages high-priority operational incidents and coordinates across technical teams to keep integrations aligned and on track.
- Participates in acceptance testing processes, verifying that delivered solutions meet the defined architectural and functional requirements.

UltraZound Labs

Fullstack Developer

10/2024 – 06/2025 | Zaragoza, Spain

- Built a web-based echography simulator with a strong focus on frontend development using NuxtJS.
- Developed responsive and accessible user interfaces, prioritizing usability and performance.
- Worked closely with backend services and REST APIs to manage application data flows.
- Collaborated with designers and domain experts to translate user needs into functional UI components.
- Took ownership of features end to end, from implementation to testing and refinement.

Education

Erasmus Exchange Program

West University of Timișoara

2024 – 2025 | Timișoara, Romania

- Studied masters courses in software engineering while working on thesis project.

Bachelor's Degree in Software Engineering

University of Zaragoza

2021 – 2025 | Zaragoza, Spain

- Thesis: Web echography simulator for physiotherapy tuition.
